Senior Software Engineer | Python | Distributed Systems | Cloud-Native Applications | Medical Imaging Platforms

Summary

Senior Software Engineer with 8+ years of experience building cloud-native backend systems for healthcare and biomedical research platforms. Specialized in distributed systems, microservices architecture, and large-scale data movement across AWS, Azure, and GCP.

Authorized to work in the United States and Singapore.

Flywheel.io

Remote

SENIOR SOFTWARE ENGINEER

Jan. 2023 - PRESENT

- Own backend services supporting large-scale biomedical imaging ingestion, transfer, and management workflows.
- Lead development of cloud-native Python microservices deployed to Kubernetes for scalable, resilient processing of imaging datasets..
- Designed high-throughput data transfer services responsible for securely moving hundreds of terabytes of imaging data across distributed cloud environments.
- Drive architectural decisions around API design, data modeling, observability, performance optimization, and operational reliability..

Medical University of South Carolina (MUSC)

Charleston, SC

SYSTEMS PROGRAMMER/DEVELOPER

Sep. 2018 - Dec. 2022

- Led development of scalable scientific-computing pipelines processing over 100 TB of neuroimaging data.
- Co-created PyDesigner, an open-source diffusion MRI processing framework adopted by research institutions worldwide.
- Designed machine learning and deep learning solutions for neuroimaging applications including epilepsy prediction and image segmentation.
- Built reproducible containerized research environments using Docker and Singularity.

State University of New York at Buffalo

Buffalo, NY

DATA ANALYST (INCL. MASTER'S THESIS)

Jan. 2017 - May 2018

- Performed statistical analysis of RNA sequencing datasets to identify disease-associated gene expression patterns.
- Developed image-processing and segmentation workflows for biomedical research using clustering and computer vision techniques.

Education

State University of New York at Buffalo

Buffalo, NY

M.S. IN BIOMEDICAL ENGINEERING

Aug. 2016 - June. 2018

- CGPA: 3.804/4.000

State University of New York at Buffalo

Buffalo, NY

B.S. IN BIOMEDICAL ENGINEERING

Aug. 2012 - May. 2016

- Awarded the International Admissions Scholarship
